Welcome to

Ordering

Making your purchase is simple. Once you have looked through the catalogue and made your choice, take a selection form (there are some included in this catalogue as well as

in-store) and fill in the catalogue number and the quantity of the goods you require. Then take the form to a service point. Whilst you are paying, your goods will be collected from our stockroom and brought to the collection counter ready for you to pick up.

Superstore Delivery Service

If you live within 20 miles of one of our Superstores you will be able to use our Superstore telephone ordering/delivery service. As well as our "Free Home Delivery Service" on selected items (see opposite page), you can also order any other item and have it delivered to your door, for a small delivery charge. As long as you live within 20 miles, you can order either by going along to your local Superstore, or by telephoning your order from the comfort of your own home or office during normal working hours. All you need to do is telephone your local Superstore, quoting your name,

credit or debit card number, and item details, and we will take care of the rest. (Superstore telephone numbers are listed on the back of this catalogue.)

Welcome to the famous Argos catalogue. We have compiled this catalogue with you in mind, to offer you a great way of shopping for a huge range of quality products, at prices you will find hard to beat. The Argos secret is simple. We have developed a way of shopping, designed around you and for you. So all you need to do is browse through our catalogue at your leisure and select exactly what you want - Argos really does take care of it. But this is only the start. Our buyers are committed to obtaining only the

best - and if any product does not meet our Safety and Quality standards, it does not get into our catalogue. For your complete peace of mind, we support our commitment to quality with comprehensive guarantees and a first-class after sales service. (See over for details.) To give you, our customer, the best, we also have a host of services to make your shopping even simpler and more enjoyable. These include - free home delivery (on selected items), and Extended Product Guarantees. Both reinforce our

commitment to giving you a better service.

So, if you're looking for a huge range of quality goods and services at

competitive prices - and a way of shopping which is designed around you - Argos takes care of it.

Ways to Pay

You can pay for your purchase with any one of the credit cards shown, with cash or with the SWITCH debit card. You can also pay by cheque and, unlike many retailers, if you have a valid cheque card, we will give you immediate clearance on cheques up to £500 (subject to status).

Argos Personal Account

Open an Argos Personal Account and you can

- have up to £1000 instant credit with no deposit*.
- purchase items when you want them.
- spread the cost to suit yourself.

It works like this:

You decide how much you want to spend each month and we will then give you up to 24 times that amount as a total credit limit*.

Monthly Repayment	£5	£10	£20	£40
Instant Credit of	£120	£240	£480	£960

The table above gives some examples.

If you are over 18, just fill in an application form and hand it to one of our sales assistants, or post it to the address shown. When your application has been accepted, you will receive your Personal Account Card. You will also receive regular advance notice of promotions and offers we're running. Interest of 2.35% will be charged on the outstanding balance of your

account each month. This means that

an Annual Percentage Rate (APR) of 32.1% is charged if you pay through Bankers Order (Standing Order)/National Giro Order, eg if you purchase the Hitachi Video Cassette Recorder (catalogue price £319.99) you can make 32 repayments of £14 each and 1 repayment of 43p. The total amount payable will therefore be

(This assumes the APR remains constant over the period of repayments.)

Interest rates quoted are correct as at 21st January 1991 but may vary. A leaflet containing current interest rates and full credit details is available from any Argos store. Applicants must be 18 years of age or over. Written details are available on request. *Acceptance is subject to status.

Free home delivery on selected items

Where you see this symbol against a product we will deliver the item FREE, direct to

your door - anywhere in Great Britain or Northern Ireland. (As these items are generally big and bulky they are not available for collection from our stores.) You can order from any of our stores or you can phone our FREE LINKLINE ORDERING NUMBER. Simply call 0800 700 910 to place your order using any of the major credit cards shown on this page. You can call 24 hours a day, 7 days a week giving your name, address, telephone number, and credit card details, along

with the catalogue number and description of the item you wish to purchase.

Whether you order these selected lines from home or from an Argos store, delivery will normally be made within 14 days. (Unless otherwise indicated in the description of the item or at the time of ordering.)

Please note: This linkline number can only be used for placing orders.

Quality, Safety and Services

Quality

We want you, our Customer, to have total confidence that every item you purchase from Argos is SAFE, RELIABLE and of the highest OUALITY. We have therefore developed a large Quality Control team, fully dedicated to fulfilling such requirements and we believe that the time and care we take on Quality Control is the envy of other retailers. In many cases, we even undertake to have the products we sell tested by independent test laboratories. We also carry out random inspection of deliveries to our warehouses on a regular basis, and the performance of all our products and suppliers is monitored continuously. Coupled with this care and commitment is our policy to select and stock top quality

brand names, that you can trust. So you see Argos really does take care of it.

The Argos Promise

The following guarantees do not affect your statutory rights.

If you change your mind and decide that a product you have bought does not meet your exact requirements we offer you the opportunity of returning it within 16 days of purchase, for a full refund or exchange.

We simply ask that it is returned in its original and unspoilt condition, with its original wrapping and your receipt. Please note this promise does not apply to earrings for pierced ears.

Please note: Some of the goods which are shown in the catalogue may vary slightly if a supplier has changed or altered their specifications after the catalogue has been printed. If this should happen, we will try to help by offering you alternative goods of a similar specification and value to your original choice.

NB: All sizes, weights and capacities quoted are approximate.

Safety Safety Accessories Symbols

Apart from ensuring the quality and safety of the products we sell, we also stock accessories to ensure your safety when using certain products. For instance, we sell circuit breakers to use with electrical products as well as protective kits for use with DIY and gardening equipment. In order to care for your home and family we also sell a variety of safety devices for use around the house ranging from smoke detectors and automatic outside lights to child safety products.

The Lion Mark is a symbol of toy safety and all Argos toys are tested for compliance with exactly the same approved safety standard.

The "CE" mark is also a symbol of toy safety and is part of a campaign by the EEC to improve safety standards across Europe.

Making sure that you are happy with your purchases. both when you buy them, and when vou have taken them home, is very important to us.

If a product develops a fault, simply return it within 30 days of purchase. and we will offer you an exchange or a full refund. If a fault develops and the product is returned to a store more than 30 days after purchase but within the manufacturer's guarantee period, we will provide a free-of-charge repair facility. normally within 16 days. And don't forget that we can arrange to have many electrical appliances serviced in your home. So, if there is a problem, let Argos take care of it.

3 - 5 Year Extended Guarantees

To reinforce the Argos policy of selling high quality products at superb prices

we are offering, in addition to our manufacturer's guarantee, an Extended Guarantee scheme. This gives you the extra reassurance of knowing that you have safeguarded yourself against possible repair costs after the manufacturer's guarantee has expired, and that expert help is always available.

For a modest single payment we can arrange insurance cover for you, for up to a total of 3 or 5 years after you have made your purchase.

Our guarantees (which are arranged through Cornhill Insurance) are available on a wide range of products - from microwave ovens to televisions and from midi systems to

cameras. So when you are choosing your purchase, and for that extra peace of

mind, why not protect yourself for the future by taking out out an Argos Extended Guarantee. Pick up a leaflet instore for details.

There are many powered garden tools available today to help take the effort out of making your garden look beautiful. But which, from the large range at Argos, do you choose?

Caring for Your Lawn

In choosing a lawnmower, 3 questions need be asked – whether you require grass collection, whether you want a striped effect and how big is your garden. Having answered these, the choice is a lot simpler.

Safety ALWAYS take care when using powered garden equipment. Follow the manufacturer's instructions, wear suitable clothing and safety equipment, keep children

and pets well away and always fit a Residual Current Device (RCD) to the electric socket.

Power

Electric mowers are lighter to use, offer speed and convenience and are generally used on small and medium sized gardens. The larger the motor the bigger the power output. Petrol mowers, on the other hand, offer greater freedom and power, and are generally more suited to the larger garden.

Choice of Cut
"Cylinder" is the traditional method for
cutting and striping your lawn. "Rotary" is available in wheeled and hover varieties. Most wheeled rotary blade machines can collect grass, have rollers to stripe the lawn and can be electric or petrol-powered. Hover mowers are mainly electric powered. Some simply cut the grass, some also have a grass collection box and some can even stripe the lawn.

Caring for Your Garden Grass Trimmers

Cut grass around areas inaccessible with a lawnmower using a length of nylon line, spinning at speed. Some models may also have an edging facility, for trimming the edge of a lawn by a flower bed, for example. Grass trimmers may be electric or petrol powered.

Hedge Trimmers

Work using a scissor action, and may be corded or cordless.

Lawnrakers

Take the effort out of raking the lawn. The teeth on the cylinder rotate to rake the lawn to the depth chosen by you.

Garden Shredders

Mulch your garden waste into a smaller size, enabling good compost to be produced much more quickly.

A tough versatile truck. Converts from 2-wheel to a 4-wheel mode trolley without tools. Max load 100kg

We cover the full range of power drills enough to tackle almost any job. To help you choose the tool you need, we explain some technical terms here.

Input Wattage

Indicates the power of the drill. Tough jobs need a higher rating here.

Chuck Size

Identifies to the diameter of the largest drill bit shank that can be used.

Two Speed Drills

You can set the drill speed to a faster or slower speed, to suit the job in hand.

Variable Speed Drills

You have even greater versatility for different materials and jobs. Slower speeds can be set for drilling large holes, higher speeds for small holes. A

dial selector, to set the maximum speed, is often built into the trigger.

Electrical Diode

A type of resistor switch to change the drill speed.

Speed is changed by moving a small lever to literally change gear.

ORDLESS SCREWDRIVERS

ReversingA useful feature, to rotate the drill in the opposite direction to normal. A variable speed drill can therefore be used as a screwdriver.

Torque Control

This monitors the "resistance" encountered by the drill bit, saving damage to the motor when impenetrable areas are found.

Hammer Action

Without this, masonry and concrete can be very tough! The drill bit both rotates and hammers its way into the wall, thousands of times a minute.

Cordless (rechargeable) Drills The freedom to work away from mains power. Added features like variable speed and reverse are now available to allow these drills to also double as screwdrivers. (Cordless screwdrivers cannot double as drills - the motor lacks the power.)

Voltage
The higher the voltage of a battery, the more power potential the drill has.

SAFETY FIRST: always take care when using power tools - keep cables tidy and in good condition. Use protective gloves and goggles. Keep children away from the work area.

Smoke detectors provide an early warning system setting off an alarm loud enough to waken the family. Smoke and fumes are the major causes of death in house fires with most fatalities occurring at night - and once a fire starts you could have as little as 3 minutes to escape. All Argos smoke detectors comply with the British Standard BS 5446 Part 1 and carry the "Kite Mark". Complete with all instructions, fixings and batteries necessary for use. Smoke detectors are endorsed by the Fire Authorities.

To help keep you in shape, Argos has pages of equipment - the best range in the high street. You can develop both your strength and your stamina using the equipment we offer.

A word of advice - if you are unwell or have had heart or respiratory trouble consult your doctor before commencing a fitness programme. Do not overdo it either! Muscle aches can be expected, but exercise should not be painful. Our equipment can take punishment though. Our safety and quality policy ensures every effort is made to see that all products are strong, and safely constructed. Where appropriate products are tested to comply with approved safety

Most items include a guide for use - to get

iron discs, but are larger, weight for weight. As they do not mark floors they are useful for indoor work-outs.

Benches

All Argos benches have been tested for stability and strength. Benches make exercising with weights more effective, allowing greater body development. Many have optional attachments, such as the leg lift, to develop specific body parts.

Exercise Cycles

Our extensive range reflects the popularity of this form of exercise. They help build stamina, and aerobic capacitythe ability of the blood to absorb oxygen. More expensive machines have a smoother action, making for more productive and enjoyable exercise. Dual action cycles allow you to pedal and "row" - exercising both the upper and lower body.

Rowing Machines

Excellent for all-round exercise. Hydraulic actions give a smooth flow to your

"Body Tones" are sophisticated multi-position rowing machines giving scope for a variety of exercises.

Treadmills

These enable you to replicate jogging and walking to build stamina.

Multi-Gyms

A comprehensive fitness and body building centre for muscle development and stamina building. These machines have fully adjustable work loads. Most are large and heavy - make sure you have somewhere suitable to work out. If you're serious about keep fit then a multi-gym is what you need.

We have made a careful selection from the enormous range of cameras available today, and offer everything from a basic 110 to the most sophisticated 35mm compact. Something to suit everybody.

Lightweight, easy to use cameras, with a fixed focus lens - ideal for snapshots, without any complications. Most have built-in flash for indoors. Cassette film is simply dropped in the back!

35mm Compacts

These vary from the straightforward to the very sophisticated - but all are easy to use. Sharper, clearer pictures result from

the quality lens. Some of the features available are described here.

Motorized Load

Drop the new film in, shut the camera back and the film is automatically set ready for the first picture.

Motorized Film Advance

Automatically winds the film on ready for the next picture.

Motorized Rewind

When the film is finished, a switch rewinds the film. With automatic rewind, the camera senses the film end and operates the rewind motor.

Zoom Lens

You can compose your picture by adjusting the lens. Your subject will appear nearer or farther away as you

Auto Focus

The subject in the centre of the view finder is automatically focused by the

Auto Exposure

The camera adjusts automatically for the light conditions - perfect pictures!

Sensor Flash

The camera detects when there is insufficient light and automatically operates the flash.

Fill-In Flash

The flash fills in foreground shadows in bright conditions.

Film Speeds

Film speeds indicate the film's sensitivity to light - "Fast" films with a high ISO number (eg ISO 1000) will take pictures in poor light. "Slow" films (eg ISO 100) require good light - normal daylight. Compact cameras should be adjusted to the speed of the film used. Straight forward models usually have a simple switch.

DX coding

Some compact cameras have a facility which "reads" for you the speed of the film you insert. The camera automatically adjusts, avoiding human error.

CORDED/CORDLESS IRONS

These can be used with or without the cord attached. For heavy fabrics, which require full power and performance, the iron should be used in corded mode. For most other garments use in cordless mode to allow complete flexibility of movement. To maintain optimum performance when cordless, the iron must be returned to the "Powerbase" at frequent intervals.

Item nos 1-5 all have thermostat control, pilot light, safety thermal cut- out, left/right hand use, water level indicator and use tap water.

BEDS EXPLAINED

At Argos we offer a wide variety of beds to suit most types of sleeping habits at competitive prices.

Choosing the best bed for your own requirements can be difficult. Our range covers most types of beds and mattresses available, from single divans, back rest posture beds to double divans with storage and foldaway visitors beds. When choosing your bed the combination of mattress

and base play an important part.

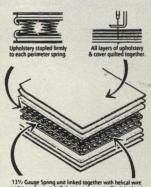

The ultimate sleep system.

The springing system has continuous support spirals which provide support right to the edge of the bed, maximising the sleeping area. Spirals also prevent partners rolling together. The mattress and base have posture zones to provide maximum support.

Traditional coil springs form the

basis of the mattress. Natural layers of upholstered materials are matched to a "breathing" natural fibre insulator. The tailored outer cover, made from a durable printed fabric is placed on top to complete the mattress and base unit.

Traditional coil sprung

units are covered with a unique bonded coir fabric pad called "Fitex" which virtually eliminates spring feel. Softer upholstery layers are then placed on top to form a composite mattress of an "Orthopaedic" type. An attractive fabric ticking is then used to cover the mattress and divan base unit.

Item nos 1, 6, 7, 9-11 and 12 will be delivered direct to your home. They are not available for collection from our showrooms. Delivery will normally be made within 14 days. Full details are available at all Argos Showrooms.

micromark

A quick, safe and effective way of cooking and heating food and drinks, and energy efficient too. All microwave ovens selected by Argos have a rotating turntable to ensure even cooking of the food, and all comply with the most recent tests on thorough heating and output standards. Some of the terms used are explained below.

This is an important feature of all microwave ovens. The higher the wattage, the more capable the oven is of heating food. Either quicker times can be achieved, or greater quantities can be cooked.

Size

For family usage, an oven of 0.9 cu ft or above is preferable.

Timers

All our microwave ovens have timers, so the oven switches off automatically after the cooking period.

Delay Start/Timer

This enables the start time to be pre-set so food can be cooking while you are out, timed to be ready for your return.

Multi-Stage Memory CookingThis facility allows food to be defrosted, cooked at a high level and kept warm on a low power level until you are ready to eat.

Auto Touch Controls

By pressing appropriate buttons the microwave oven is easily programmed to operate for a specified length of time, and at one of a number of power levels.

Auto Weight Defrost

Simply key in the weight of the frozen food and it will be automatically defrosted for the required length of time.

This facility will brown and crispen your food and give it the same appearance as conventionally cooked food.

If you are buying your first microwave oven, you may need some additional (non-metal) cookware. Select from our range on page 159.

> When using your microwave oven it is very important to follow the instructions provided by the manufacturer.

NEW INTERNATIONAL MICROWAVE OVEN SYMBOLS During 1991 all new microwave ovens sold in Europe will be given a power rating and symbol which will help to explain the "actual" power of the microwave oven. They will replace the current system of rating by wattage. Food manufacturers will also start to use the new symbols during 1991. The symbols had not been finalised by the time this catalogue was printed so please continue to refer to the stated wattages for the duration of this catalogue.

Elizabeth Duke has built its reputation upon selling quality jewellery at prices that are hard to believe. In our extensive 1991 collection we offer a wide range of items featuring some of the latest designs.

You will find jewellery and watches for every occasion: for him, for her, and of course, for yourself. Furthermore, when making that special purchase, our staff will be there, ready and willing to help.

Our service to you however, does not end there - every piece of jewellery is gift boxed and guaranteed for one year against any manufacturing defect, together of course with the Argos promise - a 16-day money back guarantee (excluding earrings for pierced ears), offering even further peace of mind. In addition, a valuation certificate is available upon request.

So, enjoy choosing from our dazzling range of gold, silver and gems. We feel sure you'll find it hard to resist.

FOUR CHARACTERISTICS TO LOOK FOR IN A DIAMOND

CUT The skill of the cut will determine its brilliance, its fire and its ultimate beauty. The most popular cut is known as the Brilliant Cut, each diamond having 58 facets to give maximum reflection and refraction of light.

CLARITY The very best diamonds are virtually free of flaws. Some diamonds have small inclusions, but most are not discernible to the naked eve.

COLOUR The highest quality diamonds are colourless acting as a pure prism to let light pass through and be broken into its myriad of rainbow colours.

CARAT A diamond's size is measured in Carats. 100 points = 1 Carat.

CHILD SAFETY

At Argos we stock a comprehensive range of child safety products selected to ensure your child is taken care of both inside and outside the home. All child safety products we sell are tested to conform with approved safety standards. In addition, we have spoken to RoSPA (The Royal Society for the Prevention of Accidents) and together we have compiled safety suggestions, available from our in-store leaflet.

HOME SAFETY

Like most people you probably feel safest in your own home, but just how safe is your child? Every year, around 200 children are killed and 500,000 need hospital treatment because of what should be preventable accidents.

What can you do? Every room in the house has its own hazards and you can't be with your child 24 hours a day. Find out at what age you can expect developments like crawling, walking and climbing to occur, and what are the most serious accidents children suffer. Use this

information to make your house as safe as possible. But remember, there is no substitute for supervision. Upstairs Safety: Keep landings and stairways clear of toys to avoid tripping, and always use a properly fitted stairgate. Some children are afraid of the dark so you may find it reassuring for you and your child to use nursery lights and baby listeners. At bathtime, always test the water first before putting your child in to prevent scalding, and never leave them alone, even for a minute.

Kitchen Safety: Always a high risk area, especially when in use. Keep sharp objects, medicines and cleaning chemicals locked away and out of reach, and try to use a coiled flex for your electrical kitchen appliances. When your child is in the kitchen, it is best to use a high chair, so that your child is securely strapped in out of harms way. And never leave your child unattended.

Playtime Safety: A time for fun and learning, but care is still required, particularly in the choice of toys. Younger children should never be allowed to play with older children's toys as they may contain small parts a younger child might choke on.

If using a bouncing cradle/rocker, make sure your child is securely strapped in on a smooth non-slip surface.

OUTDOORS

Pushchairs: A convenient way of taking your child shopping, but at all times he/she should wear a safety harmess that is correctly fitted and adjusted. Remember, careful maintenance of your pushchair will prolong its life, and its safety.

In-Car Safety: Over 7,500 children are seriously or fatally injured in car accidents each year. It is now law that children under the age of 14 must be correctly strapped into rear seats of cars where straps are fitted. If rear seat belts are not fitted, ensure your child is properly and securely fitted into a harness or child seat.

TELEPHONES AND ANSWERING MACHINES

SEE OUR LEAFLET

The range of telephones available at Argos is one of the best on the high street. The many telephone features available include: —

Last Number Re-Dial. The phone remembers the last number dialled and with the press of a button, will automatically re-dial

Memories. The numbers you use most often can be stored in the phone's memory and dialled by pressing only one or two buttons.

Mute Button allows you to put the phone call "on hold" - useful if you need to talk to someone without the caller overhearing.

On Hook Dialling. You can dial without picking up the receiver. You can hear when your call is answered and you then pick up the handset to speak.

Hands Free Speech - usually combined with on-hook dialling, by pressing a button you can listen and speak with the receiver in place.

Star Services - British Telecom are currently installing digital exchanges and these will soon be available for rental in most of the country. Facilities available include call diversion, code calling, repeat last call, call waiting, call barring, reminder call and threeway calling. In order to access these new services, your phone will need to be multifrequency or Touch Tone* compatible.

Ring equivalent number (REN) determines the number of telephones you can connect to a line. The maximum total REN for a BT line is 4. Mercury - it is now possible to make calls via the "Mercury" network by dialling into the network and entering a

personal code. Some telephones now feature a blue "Mercury" button which allows one touch dialling into the system.
Other "Mercury" compatible telephones enable programming of the sequence into a

normal memory.

Cordless Phones -

give the user the freedom to talk on the phone away from the base unit, by use of a portable rechargeable handset, within environmental and range limitation.

Answering Machines.
These machines will answer your phone if you cannot answer it yourself. You need a new style BT phone socket and a nearby 13 amp mains socket. Some answering machines are combined with a telephone in a dual unit.

Call Monitoring allows you to let the machine take a message while you listen in to see who is calling, so you can choose who you answer the phone to!

Memo Facility allows you to leave a message on your machine for someone else to access on their return.

Remote Control allows you to call your own number and play back any recorded messages from any phone, anywhere. Some machines are voice activated whilst others require a control device which produces coded tones. *Touch Tone is a BT registered trademark.

CORDLESS TELEPHONES

Cordless phones give you the freedom to talk using a portable handset within a 100m range of the base unit, subject to environmental conditions. They are susceptible to interference from other phones and radio transmissions, particularly when used from a distance. Reception may not be as clear as a conventional phone and it is important to follow the manufacturer's installation instructions. The handset recharges on the base unit, therefore cordless phones require both a telephone jack socket and a 13 amp power point to be adjacent to each other. Cordless phones without battery back-up will not operate during power failure. For full details of cordless phones please refer to both text and chart.

For any queries about your cordless phone, please ring the appropriate helpline number during office hours: British Telecom – 0800 252 599.
Betacom – 0272 353 627.
Panasonic – 0344 853 943.
Southwestern Bell – 081 574 2222.

AUDIO/ PERSONAL STEREO

Nowadays, there are so many features available on audio equipment that not all of them are readily understood. Our aim here is to explain some of them. You can obtain more information in our showrooms.

Compact Disc Players

The most accurate sound reproduction available no hiss, clicks or scratches you might get from tapes or records. The player reads the "digitalised" sound from the disc by laser. CD players have search facilities to find the track you want, and are programmable to play the disc in whichever sequence you wish.

Personal Compact Disc Players offer many of the functions provided by standard compact disc players, but are portable too!

Cassette Decks

High Speed Dubbing allows you to copy from another cassette at speeds much faster than normal playback.

Continuous Play is only available on twindeck machines. When one tape finishes, the other can start immediately.

Dolby* "B & C" are built-in systems which reduce tape hiss, often noticeable on "quiet" music.

Auto Reverse changes the direction the tape plays when one side is finished. Thus, both sides play one after the other.

Personal Stereos

Anti-Roll. On personal stereos you may find an anti-roll device useful. It eliminates play back distortion if you use the unit whilst on the

Bass Boost. To get a richer fuller sound, the bass boost facility enhances the lower frequency levels of the sound.

Radio Tuners

Digital Tuners scan the whole waveband, rapidly seeking the strongest signals. Once tuned in, they stay "focused" on the chosen station, eliminating "station drift". Quartz, PLL and synthesised digital tuners are more onhisticated warriers. sophisticated versions.

Pre-Set Buttons enable you to store your favourite stations' positions in a memory, and recall them with the touch of a button.

Graphic Equalisers

These are sophisticated tone controls which allow you to "shape" the sound you hear by adjusting the tone "bands". The more bands, the greater the degree of control.

Power Output

Manufacturers' generally express the potential maximum volume of an audio product in one of three terms (R.M.S.) (M.P.O.) and (P.M.P.O.). To compare these different terms an approximate guide is:-

1W RMS ≡ 2W MPO ≡ 4W PMPO

The higher number of watts, the greater the capacity of the amplifier and the louder the sound will be.

1. CATHAY RC535 MONO RADIO/CASSETTE RECORDER. Medium and FM wavebands. Built-Total output 3.2 watt (PMPO). 240V ac mains or 4 x R14S batteries (order 2 of 980/1413 at £1.15 pair). Size 5 x 3 x 10 inch approx.

OVER 270 SHOPS NATIONWIDE

There are 3 different types of Argos; – 'Best Sellers', 'Traditionals' and 'Superstores'. Each type has its own special catalogue which contains a different number of products.

- The Argos Best Seller catalogue contains our top best selling products - over 2,600 in total.
- The Traditional catalogue contains nearly 4,000 products and includes all our best selling lines.
- The Superstore catalogue contains all the products which are available through our Best Seller and Traditional catalogues, plus a further 2,500 lines which are exclusive to our Superstores.

In addition, if you live within 20 miles of a Superstore you can use our Superstore Delivery Service (see page 2 for further details).
